Welcome to Issue 198

Highlights

08 Half-baked
Richard Swinburne is excited about Valve’s Half-Life: Alyx but less about the hardware requirements.

10 Getting cross
Should games and religion ever mix? Tracy King looks at the latest game to try.

15 Custom PC Awards
The Custom PC awards are back and we want to hear your thoughts.

20 Asus ROG Strix X570-i Gaming
Antony Leather puts Asus’ more affordable mini-ITX motherboard through its paces.

24 ARCTIC Freezer 50 TR
Are Threadripper CPUs too big for air cooling? ARCTIC doesn’t think so. Antony Leather turns up the heat on the 50 TR.

30 Roccat Kone Pure Ultra
Roccat enters the ultralight gaming mouse market with a rodent that’s a little bit different. Edward Chester puts it through its paces.

42 TRX40 motherboard Labs
As 3rd-gen Threadripper has impressed us mightily, we ask which motherboard should you pair with your processor? Antony Leather tries out five of the best.

54 HDR monitor Labs
HDR is the latest craze in PC monitors, but which is the one to buy? Six of the latest models are put to the test.

71 Conflict Zone
Call of Duty: Modern Warfare gets the mechanics right but Rick Lane wonders if the message is wrong.

78 24-core Threadripper build guide
Antony Leather takes us through how to build a monstrously powerful multi-core mammoth of a machine in this 24-core Threadripper build guide.

88 HDR monitor buyers guide
The standards and technologies behind the recent raft of HDR monitors is confusing. Edward Chester clears things up.

94 Hobby tech
Gareth Halfacree talks to the man behind Bitmap Books, tinkerers with the SensorEq Coolipi and leafs through UNIX: A History and Memoir.

106 How to soundproof your case
Keep a lid on your PC’s noise levels with our guide to the easiest way to cut your computer’s cacophony.
