06 SPARK

- 06 **Top Projects**
What's impressed us this month
- 16 **Objet 3d'art**
3D-printing: tastes good, will save the rainforest
- 18 **Meet the Maker: Kim Freeburn**
Creator of accessible robotics company, PiBorg
- 22 **Columns**
On the mutable magic of FPGAs
- 24 **Letters**
Your requests, rants, and recommendations
- 26 **Kickstarting**
Connect I²C devices to your desktop computer
- 28 **Hackspace Geespace Gwinnett**
Geeking out in Georgia (USA)

33 LENS

- 34 **What 3D printer?**
All the knowledge you need to choose your next replicator
- 50 **How I Made: Glass kiln controller**
Monitor the temperature of molten glass
- 56 **In the workshop: Gold repair**
We try the ancient Japanese art of Kintsugi
- 60 **Interview: Chan'nel Vestergaard**
How one self-taught maker is bringing science to the masses
- 68 **Improviser's Toolbox Hair-dryers**
What fun we can have with hot air and a fan

Tutorial

Build a baby monitor

90 Big Brother is watching you

Cover Feature

Discover the results of the first in-depth community 3D printing survey

34

18

Direct from Shenzhen

USB power adapter

114 Phenomenal USB power with an itty-bitty price tag

73 FORGE

- 74 **SoM CircuitPython**
Use maths and code to generate waveforms
- 76 **SoM CNC routing**
It's time to put the metal to the plywood
- 80 **Maker's Toolbox: Impact drivers**
We're talking about torque
- 84 **Tutorial Sewing machines**
Get started with this makerspace stalwart
- 88 **Tutorial Painting**
Protect and beautify your builds with paint
- 90 **Tutorial Build a baby monitor**
Craft a surveillance device for your tiny human
- 96 **Tutorial OctoPrint**
Set up control software for your 3D printer
- 100 **Tutorial Logging**
Capture environmental data from an Arduino
- 106 **Tutorial Open weather station**
Interpret open data with a simple IoT build
- 110 **Tutorial 3D print infills**
Give your prints structural strength

56

Interview

Chan'nel Vestergaard

60 From self-taught Arduino tinkerer, to visiting MIT fellow, via shoes made from pineapple

106

113 FIELD TEST

- 114 **Direct from Shenzhen USB power manager**
Turn a puny 5V into 30V with this affordable doohickey
- 116 **Best of Breed**
Our favourite learn-to-solder kits
- 122 **Can I Hack It?**
Get under the hood of a kids' electronics kit
- 124 **Review Gas-powered soldering iron**
Take hardware hacking on the road with this portable tool
- 126 **Review Let's Start Coding**
An accessible way into learning microcontrollers
- 128 **Review All About Circuits: Tools**
Outsource your electronics calculations with this excellent website
- 129 **Book Review Unix: A History and a Memoir**
A rose-tinted history of this ubiquitous computing platform
